# 01 主導列變化

設計

當解析度小於1280px時，主導列的搜尋與產品類別選單會被隱藏。

目的

在畫面較小的裝置上，導覽列只保留了LOGO與漢堡選單，較不會讓使用者誤觸且網頁看起來更加簡潔不複雜。

## 02 文字排版變化

### 設計

在768px以及320px時，文字排版改成上下排列  
而不是左右。

### 目的

如果以原排列方式在較小的裝置上瀏覽會非常吃力  
且不意閱讀。

1280px

#### UNCOVERING A NEW DIMENSION: THE SKY

The Skyview option was developed in accordance with the attributes that characterise the CHIRON. The symbolic horseshoe grill, and the distinctive C-bar on the side, still define it as unmistakably BUGATTI, as do its pronounced lines and generous surfaces. From inside, the glass roof enables a view into another dimension, flooding the cockpit with natural light.

It generates a new feeling of speed and space, turning a drive in a BUGATTI with Skyview option into an incomparable, three-dimensional experience. The two glass elements are installed on either side of the central fin, which protrudes from the CHIRON's carbon fibre body and stretches fluidly towards the signature line which defines the car's unmistakable profile.
